

TYPEFACE

Capo is the primary brand typeface. Use it across all materials.

Capo Bold, Medium, and Light serve as the core working styles of the family.

Capo Light works well for headlines and creates strong contrast with the logotype.

Note
The Capo ampersand closely resembles the brand monogram. Use the monogram for identity marks. The Capo ampersand works well in editorial copy and headlines.

Use Capo Black sparingly for limited headline moments, as its weight carries strong visual presence.

COLOR PALETTE

The Egg & Out color palette draws from the natural spectrum of egg yolks.

Warm golden yellows moving toward light orange signal freshness, flavor, and sunshine. Lighter creamy tones reflect soft scrambled eggs, while deeper golden hues evoke rich, farm-fresh yolks.

Orange plays a central role in the system. It carries strong associations with food, warmth, and quick hospitality service, long used across the restaurant industry. At the same time, the color creates a distinctive visual presence that helps Egg & Out stand apart within the breakfast and fast-casual landscape.

Note

Review colors for each medium. PMS, HEX, and RGB values vary across print and digital formats. Adjust as needed to maintain the intended color appearance.

Note

Farmer Yolk serves as the primary lead color. Use it as the main brand color.

The remaining yellows and oranges support the palette. Apply them with attention to contrast, legibility, and context. And, there are times when non-lead colors may take a lead focus.

PRIMARY ORANGES	FARMER YOLK PMS 1585 C RGB 21 / 86 / 95 HEX #f26a22	FREE RANGE YOLK PMS 144 C RGB 237 / 139 / 0 HEX #ec8b00	BROKEN YOLK PMS 130 C RGB 242 / 170 / 0 HEX #f2aa00
